

Resilience Toolkit How to Guide

Getting Started

• Open your web browser and navigate to https://resilientmaryland.com

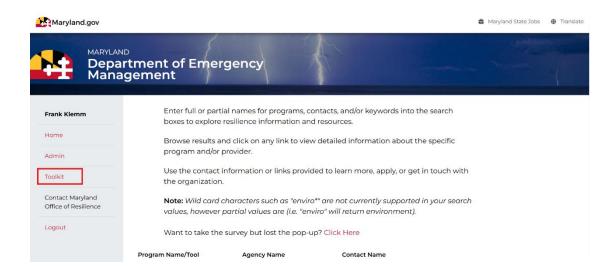

• The main search features of the site are accessible without logging in credentials. For specific non-public users, the *Login* option on the left-hand side will allow access to additional features.

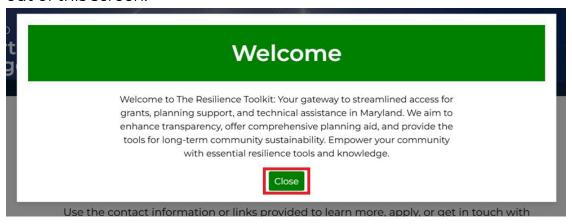

Navigating the Toolkit

• On the left sidebar, click the **Toolkit** option. You will be directed to the Toolkit page. This page has multiple empty fields that will be used to navigate.

 The page may open with a welcome message that describes the toolkit as your centralized gateway for grants, planning support, mapping tools, and technical assistance statewide. You can press *Close* to exit out of this screen.

- The search features include filterable fields, such as:
 - o **Program Name:** Name of the grant program or tool of interest
 - Agency Name: Agency/organization responsible for issuing or administering the grant program or relevant tool
 - Due Date (grants/loans only): Deadline for submission of applications
 - o **Keywords:** Terms used in the cost share description of the item
 - o **Funding Type** (grants/loans only): Grant or loan funding source

 Enter your desired search criteria, then click the **Search** button (highlighted in red below). The results will appear as shown in a green grid below.

 Once the search grid is generated, there will be an option to export the search results to an Excel file. This can be done by pressing the *Export to Excel* button. This feature and a sample of the results are shown below.

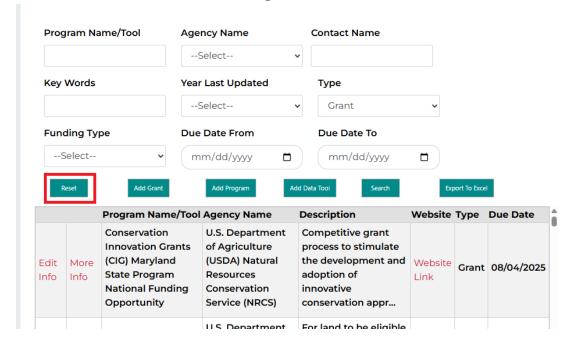

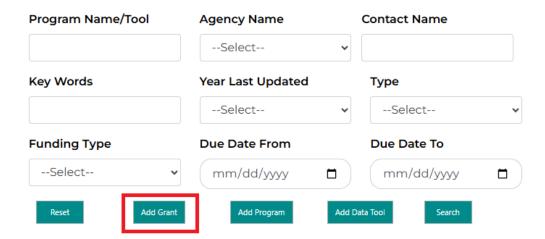

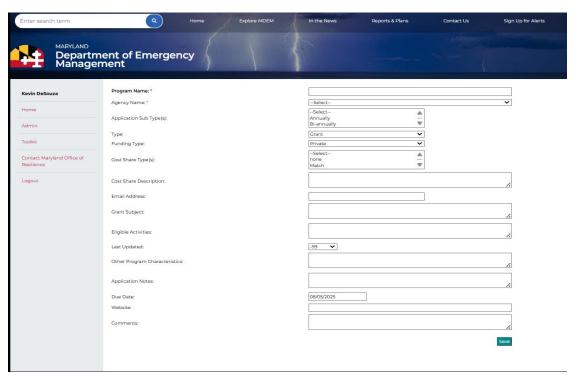

o Click **Reset** to clear the search grid.

 Logged-in users may add or edit grant information directly on the website. Select the **Add Grant** button at the bottom of the screen to enter new information.

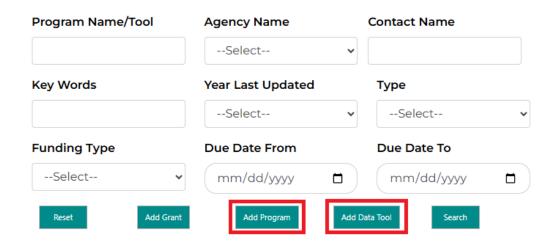

Fields that are required will be marked with a red asterisk "*"

 In addition to the Add Grant button, there are other options to add programs and Data Tools (Add Program, Add Data Tool) which allow users to add records in a similar way to the Add Grant page.

Logged-in users can also edit records within their own organization,
while MDEM accounts may add and edit records for any agency.
